

ADDITIONAL EXAM EXEMPTION INCENTIVE PROGRAM INFORMATION:

General Provision:

A student may choose not to participate in the exam incentive program. A student may wish to take exams regardless of meeting the exemption criteria to improve his/her semester average. This option is “no fault” as the student will receive the higher of the grades (most recent term or exam) as the exam grade. Example:

	1 st Term	2 nd Term	Exam	Sem. Ave.
Exempt and <u>takes</u> exam	B	C	B	B
Exempt <u>does not take</u> exam	B	C	C	C

Administrative Procedures:

Attendance accountability will begin on the first day of official school attendance in August and the first day of the second semester in January.

If the exempt student fails to maintain attendance or grade eligibility during the period between running the attendance and the exam, the individual teachers will notify the student and parent by phone call or written notice that the student is no longer exempt from the exam.

Distribution of sign off sheets will occur in English classes.

Notification to parents of the exam incentive program will be distributed at the beginning of the school year.

Exam schedules will be announced by the principal.

Teachers will take class attendance during exam days.

Exempt students will not be required to attend school during the exam periods. The parent/teacher sign off sheet will serve as permission to be absent from school during those periods. A parent note is required for the student to leave the building during any other period.

If the student is not exempt during a period, he/she is expected to be in class. If the student skips the exam, he/she earns an E for the exam.

Activities will be planned for exempted students who remain at school.

If a student is exempt from the mid-term exam, his/her **2nd marking term grade** will be recorded as the mid-term exam grade. If a student is exempt from the final exam, his/her **4th marking term grade** will be recorded as the final exam grade.

Advanced Placement (AP) Exam Participation Incentive

THIS SECTION IS RELEVANT ONLY TO THOSE STUDENTS TAKING THE AP EXAM FOR THE AP CLASS IN WHICH THE STUDENT IS ENROLLED.

If the student participates in the AP exam for the AP course of enrollment, the student will be automatically exempt from the final exam in that class.

This does not apply to mid-year exams for the AP class. The criteria detailed in sections regarding scholarship, attendance, conduct, etc. are to be applied for mid-term exam exemption incentive status.
